

Humanic Design Reporting

Humanic Reporting: Real-time HR business intelligence for real-time business decisions
Humanic's business intelligence enables fast access to accurate, timely, and meaningful information to help organizations make strategic decisions quickly and easily.

Humanic Design Reporting:

Humanic's technology and drag-and-drop reporting tool with Microsoft[™] Web queries in Excel, provides easy-to-use end-user views for reporting.

IT support no longer necessary

Humanic solutions are designed for end users to access information without the need of IT or technical assistance. Our Discoverer reporting tool allows users access to one of the hundreds of standard reports, easily customize them or utilize wizards to produce new and shareable reports. Users can also use Microsoft Excel to extract information quickly and easily into standard formats. Humanic is available on demand, anytime, anyplace with an Internet connection and a Web browser allowing for real-time information for business decisions.

HR needs to be a strategic weapon

Humanic business intelligence reporting tools save time on strategic decision-making. The end result is a workforce management system that will help you align people, processes and technologies around common goals and objectives.

About Humanic Design

Humanic Design has been a leading provider of human resource management solutions since its inception in 1982. The company is committed to solving HR, Payroll, Time and Attendance and Talent Management challenges and has supported hundreds of organizations in moving to a cohesive HR strategy. Humanic's software applications are affordable and scalable; providing feature-rich, yet easy-to-use solutions for almost any size organization. With a solid understanding of today's HRIS professionals' needs and specific industry requirements, Humanic Design is certain to have solved human resource problems for an organization like yours. Humanic is designed using Oracle technology and offers both licensed software and software delivered on demand via Humanic's SAS 70 certified data center.
